\* The Register from May 20, 1673, to May 4, 1704, is subscribed "Will. Beveridge, parson," "Will. Beveridge, D.D., parson."

† In respect to this entry there is preserved in the Register a letter from Sir John Page Wood, Bart., Rector of St. Peter's, dated 30 Nov., 1829, in which he says, "on minutely investigating the register of marriage of one Osmund Mordaunt with Mary Bulger, dated 1673, I am clearly of opinion that the said entry of marriage is a gross and clumsy forgery; my opinion is formed on the discrepancies which exist between the said entry and those of the same period before and after it. Its handwriting is evidently more modern than those near it; it is not entered like the others with a specification as to the ceremony's having been performed by the authority of Banns or Licence; the parchment it is written on is thinner in substance than the rest of the book, as if an erasure had been made. The entry is made at the bottom of the page and there is no signature thereon, either of Incumbent or Churchwarden, which occurs in every other page of that period." A pedigree is also given, drawn up by some member of the Herald's College, by which it appears that Osmund Mordaunt, who was fourth son of John, created Lord Mordaunt of Ryeate, 10 July, 1559, was not more than eighteen years of age in 1677, and consequently would only have been fourteen at the time of this reputed marriage. In the Baptisms under date of 29 June, 1674, is this entry, "Peter, the son of Osmund and Mary." It is in a different handwriting to the other entries, is on the last line at the bottom of the page, and has evidently been inserted after the page had been signed Will: Beveridge, as one of the figures of the date crosses that signature, and in every other page a small space is left between the last entry and his signature. There can be no doubt but that both entries have been interpolated.
